It is very unfortunate that we have to write this letter. We do it because "If America ceases to be righteous America will cease to be great". The day that this Nation, government, and citizens endorse the stimulation of homosexuality to the children, God will remove his hand from this Nation.

To remove morality and God from our lives is to destroy America and freedom. We have come to the conclusion that our time is up. All of us Christians, people of faith and religion, will have failed those who came before us, our forefathers, men and women who died in the name of liberty for this country; we would indeed have failed them if we don't protect this Nation as a nation under God. We are beyond our power and control to do anything if we don't bring men and women of public services, legislators, senators, governors, and all, to the conscience that the great homosexual movement has taken another turn. It's being used by men of power, liberal legislators, even the President of the United States, Barak Hussein Obama, to advance their agenda.

This is a large movement that has formed a wheel of power, now for 20 years, and is moving forward in this century to bring down America as a nation under God to elevate their agenda. Political and foreign powers, along with this movement, are taking advantage of good children of God, using them to bring down the sacredness of the family and the important role it plays in society and our posterity. Our children are in danger; our country is in danger, but worst of all, religion as a whole will lose it's free speech, and perhaps even tax exempt status, as well as the children.

America Forever feels that the only thing left to do at this time is to plead with religious leaders in behalf of this nation and the children, the future generation, our posterity, the children of God. We are relying on these leaders to hold their members accountable for their choices and actions. In this case, Senator Susan Collins needs to be held accountable for standing on the wrong side of the fence and helping bring down this nation and religion as a whole. With a voting record of 100% in favor of the homosexual agenda, she has now united herself with President Obama, which has from the beginning announced he would be the "bully pulpit" to give all rights to homosexuals. Just a few days ago, President Obama spoke at the annual Human Rights Campaign dinner, the core of the homosexual movement, promoting the homosexual agenda. In his speech, he explicitly said that he wants to normalize homosexuality and educate the children to accept same sex marriage and homosexual behavior as the same of a man and a woman.

There is a bill running in congress which will bring down free speech and religion as a whole. A Bill which Senator Collins herself is a sponsor of. From her hands this evil act against our free speech, our country, our children and God is set forth. She has the power to stop this despicable legislation, Hate Crime Bill otherwise known as the Mathew Shepard Act, hidden within the Defense Appropriations Bill. It is a vote against religion and everything that stands as a witness of Christ. This is the backdoor for homosexuals to obtain everything in their agenda, including the teaching of children under the guise of tolerance and even same-sex marriage, for that is how it has been done in every state where same-sex marriage has been legalized. Senator Collins needs to take a stand on the right side. She needs to be held accountable for her beliefs. If she continues to promote and stand with President Obama, the homosexual agenda, hate crime legislation, repealing DOMA, removing the Don't ask Don't tell

policy, and health care bill which is also a bill sought out by the homosexual movement to advance the homosexual agenda-- she needs to be brought to accountability and disciplined. What many don't know is that there is a bill running side by side to the Health Care Reform Act about healthcare reform for homosexuals, transgender, bisexuals, and lesbians. The public option is greatly wanted by those with HIV.

How is it that Senator Collins lets it be known that she is Roman Catholic but publicly (politically) endorses the homosexual agenda that is also godless, and yet she is not disciplined for her membership?

Although in more recent years the Roman Catholic Church has stated that homosexuality is a disorder and only sinful if acted upon, the leadership of the Church has been very strict in the legalization of same-sex relationships. Deeming them harmful to children and all of society. Hate Crime legislation is the back door to legalizing SAME SEX MARRIAGES. It is an offense to God, nature and mankind to portray it as a race, and deceive young children of tender ages. It is even worse to do this with the power given to her by the people in trust of her integrity which all know what her religion represents.

It is shameful to bring down this nation as a nation under God to elevate the homosexual agenda and political ambitions. Homosexuality and God do not go together. We respectfully request that disciplinary action be taken because of her stand and actions in uniting herself with President Obama and the homosexual movement.

Sincerely,

Samuel R.
America Forever
