# **DO NOT BE FOOLED! APPARENTLY: THE LDS CHURCH HAD NO WAY OUT except to endorse the GAY RIGHTS ORDINANCES**

## **BEFORE YOU are Swayed by this endorsement, read Elder Oaks' October 13th talk at BYU Idaho. Look at the history of gay hostilities and understand why the LDS church had to do this:**

1- The LDS Church had to Stand as an "Entity" and protect itself. (publically they cannot come out and say this)

2- The SLC Ordinances were going to pass with or without the Church's endorsements. (gays, lesbians, transgenders, bisexuals, have moved into the city and elected city officials to vote laws in their behalf)

3- They already had all the votes to pass.

4- The LDS CHURCH needed to protect itself and attain its exemption, or as they say politically, religion needed to be "Carved Out." If they had not gotten the exemption, who knows what else was at stake, the Church would be placed in a very delicate and vulnerable position to receive more attacks, for example:

- Employees who work for the church, old ones or any new hired person could come out as GAY and the Church could not fire them.
- A male employee could decide he is transgender and come dressed up as a female employee to their place of business and the church could not fire them.
- At a holiday function at work, gay employees could bring in their partners and embrace them, hold hands, kiss them in front of other employees' families and children and the Church still could not fire them.

**The ramifications could be disastrous!**

**This is a bad law!** Immoral lifestyles should not be shoved down the throats of businesses and citizens. **It takes away our religious freedom!**

## **HOMOSEXUALITY IS NOT A RACE!**

**This is not about CIVIL RIGHTS.  
Sexual Orientation is not  
a Class!**

**You cannot equalize it!**

All anti-discrimination laws containing sexual orientation in them, are made with the sole intent to promote the acceptance of homosexuality and other sexual behaviors as a lifestyle to the children. It is the backdoor for same-sex marriage. **WE MUST HAVE COMPASSION ON THE CHILDREN.** Endorsing these lifestyles to the young of tender ages confuses them and causes violence to their mind, body and spirit. ## **SHAME on UTAH GAYS**

For persecuting, harassing, using intimidation tactics, and staging scenarios to corner The LDS Church into endorsing their movement and **TO USE THE LDS CHURCH AS A BACKBONE TO SWAY THE LDS VOTERS and legislators to vote for their laws!**

The gay movement is the worst enemy of the Church at this time. With President Obama and the White House as a **bully pulpit**, the attack on religious institutions can be fatal. Christianity is under attack. They need to bring down religion and this nation as a "nation under God" to elevate their agenda. **It's an OUTRAGE.**

Every single LDS member, individual, citizen of the state of Utah, should understand the position that the Church was placed in and distance themselves politically from the endorsement which was only done to STOP GAYS from attacking the Church and placing them in such positions. Since "Prop 8" in California and the staging scenario on the Main Street Plaza where a gay couple was arrested for their refusal to **stop** kissing, the Church is being threatened with lawsuits, loss of its tax exemption due to the involvement in California, and much more. Since these ordinances were going to pass anyway, the only thing the church could do was to protect itself.
